VOL. XXXXIX: NO. 44 — REDWOOD CITY, CAL., SATURDAY, FEBRUARY 15, 1908. — ESTABLISHED, 1859.

Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.
Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.
The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.
The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

LEAP-YEAR MARRIAGES

The Cleveland Plain Dealer is authority for the statement that in its own county at least, leap year brings fewer weddings than any other year, and then proceeds to explain the fact with the argument that the men are so afraid of being known among their fellows as "mollycoddles" that no matter whether man or woman makes the proposal of marriage, the man will see that the nuptials are delayed until the following year. Every man, says the Plain Dealer, objects to having it so much as hinted that he was afraid to ask the all-important question. It would be interesting to learn if the official marriage records throughout the country make the same showing as here indicated, but it would be still more interesting if we could know—which, of course, we cannot—how many or how few women actually take advantage of leap year to make bona-fide proposals of marriage. That irrespective of leap year many a dear woman has aided her lover to make his difficult confession of regard, we all are fully convinced; but this is not the point. Even the writers of fiction commonly hesitate to make their heroines "pop the question." And where the novelist fears to tread, is it to be believed that modest females once every four years walk boldly in any considerable number?

Our big fleet is still in fine shape and ready for anything from a catapult to a cakewalk.

The approaching town election promises to be a lively one. There will be candidates galore, and the people ought to be able to select satisfactory officials.

The logical candidate to succeed Roosevelt to the presidency is W. H. Taft. He is a strong man with a wide experience and would carry out the policies of our great president.

In 1905 Canada imported from the United States goods worth $82,000,000. Last year the figures were $112,000,000, or more than half of the Canadian imports. A short haul, the best prices, and the most desirable products are bound to win.

County politics have begun to simmer and many candidates for the Legislature are being mentioned. Hjlmar Holmquist, the eloquent young orator, is spoken of as the Republican nominee for the Assembly. He certainly is a deserving young man and would be a credit to the county in the lower house of the Legislature at Sacramento. Mr. Holmquist possesses all the qualification and ability to be a successful Legislator. His many friends in the county will shortly launch his candidacy.

CLEVER FORGER IS BADLY WANTED

Works Farmers, Real Estate Men and Bankers for Money Then Quietly Leaves—Big Reward for Arrest

Chief of Police Thomas Tyrrell, of Waukegan, Illinois, sends out the following account.

A short time after arriving in the county, he looks up farms for sale, usually some sistance from the county seat. He tells the farmer he is a widower and is buying the farm for some relative with whom he lives. He then asks the farmer for an abstract and gets it if possible for his lawyer to look over. After this he gets the farmer and his wife to go to the village with him and go before o notary and sign an agreement to sell him the land for a certain price, usually a very good one, or giving him power of attorney to sell the land. This coniract or power of attorney is then acknowledged before the notary, who the signs his name and places his seal thereon. After this he gets a duplicate of the seal. Then he goes to the county seat and calls upon real estate man or lawyer and tells him he is about to buy the farm and asks the real estate man or lawyer to look over the abstract, or make one if there is none, and to carefully examine the records to see if the title is perfect, as of course it is. He then has the real estate man or lawyer draw up the proper deed for the farm, and to give it to him to take to the farmer to get it executed, or, is refused, directs that it be mailed to the farmer requesting that the farmer and his wife go before this particular notary to have it executed and acknowledged. He then takes the deed, which has been drawn up, if it is delivered to him, or, failing in this intercepts the farmer's mail by getting the deed out of the postoffice or rural route mail box. Having obtained the deed, he then goes to his hotel or stopping place. There he very cleverly forges the names of the farmer and his wife to the deed; also the name of the particular notary to the acknowledgment, and then places the notary's seal to the acknowledgment on the deed.

This clever forger goes by the name of John L. Butler. He also travels under the names of William I. Beck, John Hoover and John H. Kline.

Descrirtion.—Age, about 58 years; height, 5 feet 8¼ inches; weight, about 190 pounds; complexion dark (ruddy); eyes brown; hair dark, mixed with gray; prominent cheek bones; broad forehead; rather heavy dark eyebrows; smooth face (may grow short beard and moustache); heavy build; rather broad shoulders; somewhat stooped; crease at base of nose; large flat feet; legs unusually thin for body; generally wears black or dark clothes; fair dresser; rather slow smooth talker, but unassuming in his ways, seeking to represent himself as a farmer with means.

A reward of $700 is offered for information that will lead to the arrest and conviction of Butler. Of this sum the Board of Supervisors of Lake county offers $500 and the state of Illinois $200.

J. T. O'KEEFE FILES ANSWER

Avers That He Did Not Defend Saloons

DAVID A. CURRY CALLED DOWN

Attorney for Accused Liquor Dealer Defends Menlo Park and Her Citizens

To David A. Curry, Esq:

Dear Sir:—My intention was to ignore your open letter of Feby. 7th., deeming the same unworthy of reply, but circumstances have since arisen that forcibly and clearly demonstrate my position taken before the San Mateo County Board of Supervisors. I was not defending the saloons of Menlo Park, but the decency and respectibility of the community in which I lived. We were sneeringly and slurringly referred to in a most cowardly manner, and when I told the gentlemen of Palo Alto and the University to cleanse and purify the atmosphere about the fraternity houses I was making no defense of saloons. Begin where the evil begins. When I said the residents of Menlo Park were peaccable and respectible I meant it. Our peace and quiet have been disturbed often by boisterous students and other drinking elements across the Creek. Why not moralize at home and when you have accomplished some good come over to San Mateo County and then we will have some evidence that you are sincere. You have construed all this to be a defense of saloons. I am not a drinking man and don't frequent saloons and I did not come from Kansas, either. However, in my professional capacity as an Attorney if I should defend saloons that is none of your business or any one else and I owe you or them no apology. If you will please confine yourself to your business of selling second-hand furniture it may be to your advantage, and should in the moments of deep reflection you wander back to the fields of your beloved Kansas keep in mind that Stanford University was intended by its founder, a noble pioneer character of California, to inculcate the first principles that enobles man, Christain Charity, that I am cherishing no evil or no wrong. We know that you have long since lost your love for San Mateo County. For reasons unknown you were not re-employed as principal of Sequoia Union High School here some years ago and since "We have not from your eyes that gentleness and show of love as we wont to have; You bear too strange a hand over the friends that love you."

You would have the people of Palo Alto believe that I am responsible for the unfortunate occurrences of hte past two weeks and even refer to the murder of a Chinese at Fair Oaks. He was never known to drink or gamble and I understand that he never came from Kansas, either. I am not reflecting upon the people of Kansas but you thave thrust upon us in your open letter the impression that this sanctuary of temperance is the only place where goodness flows and in that spirit only I refer to it.

Since the meeting of the Board of Supervisors, I am glad to see President Jordan beginning in the right way and in the right place to stop the boisterous conduct of students and from now on no one shall be bothered. The President is a broad-minded man and is willing to take advice of practical men. In dismissing you I would say that where ever any foot of Calfornia is attacked you will find me in the firing line defending her cause and not in the Press of Palo Alto and I would say to you look up into the bright Emporean and thank God you do not belong to Menlo Park and I would say to Men of Menlo Park look up to Heaven and say "From untruthful men like David A. Curry, O! Lord Deliver Us".

JAS. T. O'KEEFE.

Council Calls for Straw Vote

This week an opportunity is being given to the people of Redwood City to express themselves as to whether they shall vote bonds to improve the water system and build a new city hall. The committee appointed by the council at the mass meeting held in December has addressed a circular letter to every voter, setting forth fully the details of both propositions and enclosing a postal card on which the voter may express his choice on either or both. It is hoped that the straw vote will be a large one so that the council may be fully advised before calling an election. Should any of the new-coming voters have been overlooked in the distribution of circulars and cards, they will be supplied with them by calling at Chamberlain's store.

Following is the full text of the circular:

To the citizens, tax-payers and voters of the Town of Redwood City: A short time ago a call was issued for a meeting of the citizens, tax-payers and voters of this city, to be held in the Alhambra Theatre, the object of the meeting being to discuss the advisability of issuing bonds of the municipality for certain necessary public improvements, and to obtain expressions of opinion of those affected by such an issue.

Pursuant to said call, and on the 10th day of December, 1907, said meeting was held and quite largely attended. The entire matter was discussed by those present and it was unanimously agreed that the city was greatly in need of a new and modern storage system of its water supply, and a new town hall, and that bonds of the municipality should be issued to procure such needed improvements.

The present tanks at the waterworks are old, leaky and unsafe. From examination of the frame now supporting the tanks, made by experts it has been found that the timbers have rotted to such an extent as to require in a very short time an entire reconstruction of the same, and that said frame with its tanks is liable to giveway and collapse at any time.

Again the present tanks are not of a sufficient elevation to give the pressure necessary in case of fire, as has been demonstrated very recently. Fortunately, conditions have favored us in our conflagrations, but the time may come when by reason of insufficient pressure and an insufficient quantity of water, the safety of the entire city may be jeopardized. The present tanks hold, when full, less than 150,000 gallons of water. This supply is wholly inadequate to the needs of this growing community, and the elevation of the tanks is not great enough to force the water to the higher lands of the city.

The purpose of a bond issue is to raise $20,000 for the erection of three steel tanks upon steel frames, each of said tanks to have a capacity of 100,000 gallons, one of each to be erected in different portions of the city, but connected with each other, and of a sufficient elevation, estimated at about 100 feet, to give adequate pressure for protection against fire, and to supply the higher elevations within the city, now unprovided for. Such a system will provide for the needs of the community for years to come. The old system of wooden tanks and frames is rapidly giving away to the more modern, lasting, sanitary and economical steel tank and frame.

The cost of each tank, with frame, is estimated at $5000. In addition to this, there will be the cost of the necessary connections, which, with pipe required to complete the municipal system of waterworks, will bring the entire cost up to $20,000.

It is also proposed to issue bonds in the sum of $10 000 for the erection of a new Town Hall, the present building being in a dilapidated and unsafe condition.

The undersigned committee appointed at the aforesaid meeting, for the purpose of obtaining an expression of the community in regard to the foregoing matters, before recommending the calling of a bond election, request you to indicate upon the enclosed postal, your views thereon, same to be mailed on or before the 15th day of February, 1908, as a test vote upon the proposed matters. Respectfully submitted.

P. P. Chamberlain, C. J. Hynding, H. W. Schaberg, Committee.

Fire Hose Purchesed

The Board of Town Trustees met Monday evening and received bids for fire hose. Four bids were presented by Wm. Jamieson, Hull Bros., R. C. Holmquist and Bowers' Rubber Co. The Bowers' Company proving that they furnished the only hose manufactured in this state were granted the contract at 80 cents per foot with all couplings complete.

Dr. W. M. Barret was on the motion of Walker appointed Health Officer, after the office was unanimously declared vacant.

Maps and resolutions were filed for the McGarvey's subdivision of lots 43, 44, 57, 58, 59 and 60 of the Reesetract.

On the request of residents of Phelps street, the board ordered the planting of umbrella palms around the town corporation yard.

The street superintendent was directed to remove dead animals from the creek above the county road near the Beeger tannery.

Marshal Christ was instructed to collect licenses from the owners of wagons delivering beer.

SKILL OF THE ANCIENTS.

The Old Timers Apparently Did Many Things Better Than We.

"We are losing all our secrets in this shabby age," an architect said. "If we keep on, the time will come when we'll be able to do nothing well.

"Take, for instance, steel. We claim to make good steel, yet the blades the Saracens turned out hundreds of years ago would cut one of our own blades in two like butter.

"Take ink. Our modern ink fades in five or ten years to rust color, yet the ink of mediaeval manuscripts is as black and bright today as it was 700 years ago.

"Take dyes. The beautiful blues and reds and greens of antique oriental rugs have all been lost, while in Egyptian tombs we find fabrics dyed thousands of years ago that remain today brighter and purer in hue than any of our modern fabrics.

"Take my specialty, buildings. We can't build as the ancients did. The secret of their mortar and cement is lost to us. Their mortar and cement were actually harder and more durable than the stones they bound together, whereas ours—horrors!"—New York Press.

Presence of Mind.

The Duke of Wellington was writing in his library when, chancing to look up, he saw a stranger near him who had entered unheard.

"Who are you, and what do you want?" asked the duke.

"I am Apollyon and have been sent to kill you."

The nobleman realized that he had an insane person to deal with, but he was equal to the emergency. With the utmost carelessness he inquired, "Got to do it tonight?"

"No."

"I am very glad, as I am quite busy now. Just send me word before you come again, and I shall be ready for you," politely bowing the crazy person out of the room.

Shortly the fellow was safe in the bedlam whence he had managed to escape.

The Home of a Genius.

Beethoven was born in a small house in Bonn. His father had inherited the vice of drinking, and often Beethoven and his younger brother were obliged to take their intoxicated father home. He was never known to utter an unkind word about the man who made his youth so unhappy, and he never failed to resent it when a third person spoke uncharitably of his father's frailty. Young Beethoven was thus taught many a severe lesson in the hard school of adversity, but his trials were not without advantage to him. They gave to his character that iron texture which upheld him under his heaviest burdens.

The Influence of Books.

Books have always a secret influence on the understanding. We cannot at pleasure obliterate ideas. He that reads books of science, though without any desire fixed of improvement, will grow more knowing. He that entertains himself with moral or religious treatises will imperceptibly advance in goodness. The ideas which are often offered to the mind will at last find a lucky moment when it is disposed to receive them.—Samuel Johnson.

Conflicting Emotions.

"How happy a fellow feels when he has really repented of something wrong he has done!"

"Yes, and how infernally mad he gets when some other fellow recalls it to his mind afterward."

The suit of Miss Agnes Gilligan against the Southern Pacific will come to trial on February 17th in Judge Muraskey's court in San Francisco. The suit is for $10,000 damages for injuries received by being struck by a freight train in San Mateo, September, 1906.

SO DECEPTIVE

Many Redwood People Fail to Realize the Seriousness

Backache is so deceptive.
It comes and goes—keeps you guessing.
Learn the cause—then cure it.
Nine times out of ten it comes from the kidneys.
That's why Doan's Kidney Pills cure it.
Cure every kidney ill from backache to diabetes.
Here's a Redwood City case to prove it.
R. W. Hanthorn, living at 210 Second street, Redwood City, Cal., says: "My wife complained a good deal of the time from pains across her loins and always suffered more severely when standing on her feet. When at the sewing machine she would be forced to be in a stooped over position and the bending seemed to aggravate the trouble. She also suffered from a too frequent action of the kidney secretions which gave her a great deal of annoyance. Doan's Kidney Pills having been brought to her attention, she procured a box at P. J. Ryan's Drug Store. They were very prompt in giving her relief, she continued taking them, and the kidneys were restored to their proper condition, she is not annoyed by backaches and that tired languid feeling has disappeared. A medicine that will set up to its representations as Doan's Kidney Pills did in Mrs. Hanthorn's case is worthy of recommendation.
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's and take no other.
